### **ORION WARRANTY INFO**

1. ORION INDUSTRIES, as manufacturer, warrants each new piece of equipment sold to be free of defects in material and manufacturing workmanship for one year from the purchase date. ORION INDUSTRIES will furnish to the original purchaser, through any authorized distributor or dealer, any part or parts found to be defective under normal use and service.
2. This warranty shall not obligate the manufacturer to bear the cost of transportation charges in connection with a replacement or repair of defective parts, shall not apply to a piece of equipment upon which repairs or alterations have been made without the manufacturer's authorization, and shall not apply to defects in the manufacturer's equipment which results from faulty installation thereof.
3. This warranty does not apply where equipment is used, or installation performed, in any manner contrary to the manufacturer's specifications and instructions.
4. This warranty is in lieu of all other warranties expressed or implied. ORION INDUSTRIES does not assume responsibility for any other warranties and representations not authorized in writing.
